Northern Michigan Sees Record Year in Tourist Industry

Tourist pro pouring back into Michigan for the 1955 season among Michigan's 11,000 lakes in the rich resort areas which are enjoying increased prosperity after last year's decline.

It's a \$50 million a year business for the state and a healthy flow of tax dollars for the state treasury.

Robert J. Furlong, executive secretary of the Michigan Tourist Council, predicted that a 10 per cent decline in dollar volume last year will be erased before fall.

"This should be a great year for one of Michigan's biggest industries," he said.

Settlement of automobile contract disputes in Detroit was a harbinger of a good season. Full employment in Detroit and other metropolitan centers has a secret impact on the resorts.

The state is keeping pace with the industry.

Conservation officials have groomed the 57 state parks for the summer. These are areas where tourists can camp and swim and fish and relax free or for small registration fees.

Major park project this year will be continuance of work on Sterling State Park on Lake Erie. This park was heavily damaged by a storm in 1950, and part of the beach was swept into the lake. But with only a small strip of beach and play area, Sterling had more visitors than all but three parks in the state last year.

Still in the future, but certain to be tourist magnets are Michigan's new highway construction program and the Straits of Mackinac Bridge.

The bridge, to be completed in 1957, already is drawing crowds. "The five-mile span will rival some of the biggest bridges in the world. Highway officials hope by the time it opens there will be enough highways to carry traffic to its approaches."

Michigan motorists already are paying a 1 1/2-cent increase in the state gasoline tax to pay for the new roads, at \$35 million a year.

"All this is going to make Michigan an even more attractive place to spend a vacation," said Furlong.

Korean Veterans who received general discharges have won their point.

The state bonus law, administering the \$60 million grant giving veterans a maximum \$50 for service in the Korean conflict, specified that only honorable discharges would be recognized.

"We can only follow the law," said Major Gen. George C. Moran, state adjutant general.

General discharges were given

for a variety of reasons, some for disciplinary cases, others for mental or physical disability, and some for emergency releases.

They were discharged with honor or in most cases, but were not considered "evidence of faithful service," a requirement of the state law.

L. J. LaLone, secretary of the Michigan Veterans Trust Fund, said that more than 5,000 veterans would be denied bonuses under the general discharge ruling. Hundreds complained.

Then came the answer.

Atty. Gen. Thomas M. Kavanagh ruled that the legislature intended to give the bonus to all veterans who were not dishonorably discharged.

"We must get the cooperation of parents or we will fail to meet the problem," he said.

Enforcement officers note a general increase in under-age drinking every spring and have cracked down with legal weapons in state laws, until now, there has been a loophole.

One state law forbids a minor from possessing liquor in a car. Officers say youths hold their parties in parks. The law does not apply unless a minor and liquor are found together in a car.

The 1955 legislature gave officers another weapon—a legal ban on possession in or outside a car. Blackford said the new law will help.

Stiffer penalties against licensees—up to 15 days suspension, an increase from the seven-day suspension—has not helped, he said.

"Now we've got to get help from the parents," he said. "There's a safety factor involved, too, as well as the fact that drinking by a minor is strictly against the law."

Most Kiddies Like MILK — and that's a good thing because milk is so good for them. Now that school is out and your kiddies are out of doors playing most of the time, give them a glass of milk to pick them up. They'll love it

and it's really fine for them. There is no food that will stack up beside Crawford County produced milk as a fine food for growing children. Be sure your children have several glasses full every day, year in and year out. Their health will be much better.

Grayling, Michigan, Thursday, July 7, 1955

Future Is Very Bright . . .

The future of the northern part of the lower peninsula of Michigan looms brighter day after day. Grayling will share in this apparent prosperity. With the announcement last week by State Highway Commissioner Charles M. Ziegler of his planned highway expansion program which was heartily endorsed by Governor G. Mennen Williams, Grayling is practically assured a four lane divided highway on US-27 from the northern State line right to our city. It will be a few years in the making, but, it will come. This announcement, added to the opening of the Mackinaw Straits Bridge in 1957 should give Grayling a terrific shot in the arm.

Added to these are our own fine improvements of a new million dollar hospital, our beautiful new school addition and at least four new store buildings in our downtown area plus the continuing development of our Memorial Recreation Area which will be, we feel, a highly cohesive issue in our civic life. It will bring our citizens together to witness athletic events and heighten our "esprit de corps" as far as Grayling is concerned.

One fact in the additions to our downtown district stands out like a lighthouse to us and most likely has also occurred to you. These folks who are putting many thousands of dollars into new buildings along Michigan Avenue are really sold on at least one thing—the future of Grayling—a bright future. Otherwise they certainly wouldn't be investing the money that they are.

We think everyone should be sold on that selfsame idea. For a better and brighter life for ourselves and our children, we should constantly boost and promote Grayling in any and every field of endeavor. If a certain club or organization is promoting an idea, lend your support because its success will reflect on our County and community and likewise on you as a member of it. R. W. S.

NASHVILLE, ARK., NEWS: "The Chattanooga Times . . . showed that Tennessee since TVA has skidded in population, farm production, retail sales, payrolls, manufacturing output, where her neighbors without the burden of such fraud, have pushed ahead in economics. In effect, socialism damns the giver and the taker."

Top O' Michigan Electric

Company has put a 10% rate reduction into effect starting June 29, according to Harold S. Lees, Manager. "This reduction lowers all rates in the bottom step or bracket and represents a total savings to members of from \$15,000 to \$18,000, during the course of the next 12 months", Mr. Lees stated.

The Company has presently more than 10,000 meters connected, and the distribution system has 2600 miles of line in operation, served through the medium of 10 Sub-stations. It is anticipated that by 1950, the electric cooperative will have 13,000 members, 3000 miles of line energized, and other rate reductions in effect.

Twin Pipes that play sweet music!

Chevrolet's "Super Turbo-Fire V8" with 180 hp.

You can spot this one by the twin tailpipes. No matter what you drive, you're going to see twin-exhaust Chevrolts pulling away—in traffic, on the toughest hills, on the long straightaways.

... Unless you have a "Super Turbo-Fire V8" of your own. And then you'll know what it's like to pilot the car that sets the pace for everything else—and doesn't pause to read the price tags!

What makes the Super scot? Chevrolet's superb valve-in-head V8, with the shortest stroke in the in-

dustry, the most power per pound, and the only 12-volt electrical system in its field—all this plus a four-barrel carburetor and free-breathing twin exhausts.

Want to sample this silk-lined cyclone? Just give us a call, any day this week, and we'll be proud to show you just how hot a V8 can be.

*Optional at extra cost.
†Station wagon models have single exhaust pipes.

NOTICE OF SPECIAL TOWNSHIP MEETING AND ELECTION AND OF REGISTRATION OF VOTERS

Whereas, at a meeting of the Township Board of the Township of Grayling, Crawford County, Michigan, held on the 21st day of June, 1955, a franchise ordinance was adopted, entitled as follows:
An Ordinance, granting to Consumers Power Company, its successors and assigns, the right, power and authority to construct, maintain and commercially use electric lines consisting of towers, masts, poles, crossarms, guys, braces, wires, transformers and other electrical appliances on, along and across the highways, streets, alleys, bridges and other public places, and to do a local electric business in the Township of Grayling, Crawford County, Michigan, for a period of thirty years.
Whereas, said Consumers Power Company has heretofore filed its written acceptance of said franchise, and has requested that the question of confirming the grant thereof be submitted to the qualified electors of the Township, at a special election to be held for that purpose, and has also paid to the Township Board the estimated expense of holding such special election; and
Whereas, there has been heretofore filed with said Board, a petition signed by at least twelve electors, requesting that a special township meeting and election be called for such purpose;
Now, Therefore, pursuant to resolutions adopted by said Board, notice is hereby given that a special meeting and election will be held in said Township at Grayling Township Hall on Wednesday, the 10th day of August, 1955, for the purpose of voting on the confirmation of the action of said Township Board in granting such franchise.
The polls of said election will be opened at 7 o'clock in the forenoon, or as soon thereafter as may be, and will be held open until 8 o'clock P. M. Eastern Standard Time. The Township Clerk will be in his office on the 11th day of July, 1955, said date being the thirtieth day, as determined by statute, preceding the date of said election, for the purpose of reviewing such of the qualified electors of the Township as shall appear and apply thereafter, which registration may be made on said date between the hours of 8 o'clock A. M. and 8 o'clock P. M., Eastern Standard Time.
Said franchise as granted by said Board is on file with the undersigned Township Clerk for the purpose of inspection by the qualified electors.
By Order of the Township Board.
Dan C. Rabbitt,
Township Clerk.

New Gulf No-Nox gives you not just the highest octane but... full working octane

Remember this picture? This is Gulf's famous burner demonstration—proof of what a difference Gulf super-refining makes. Notice that Gulf refines out the "dirty-burning tail-end" of gasoline... instead of fighting it, inside your engine, with so-called "miracle additives." That's why new, clean-burning Gulf NO-NOX can promise you not just highest octane, but full working octane.

Now! For the ultimate in working octane performance, always use Gulf's super-refined gas-oil team... New Gulf NoNox Gasoline and New Gulfpride H.D. Select Motor Oil

- The only motor oil in the world that's super-refined by the Alchlor Process for modern high-compression engines.
- Controls carbon—cause of knock, pre-ignition, valve failure, power loss.
 - Combats corrosive acids, rust and deposits that build up on engine parts.
 - Assures lower oil consumption than multi-viscosity "all-season" oils.
 - Provides the toughest protective film ever developed in motor oil.
- Available in 3 grades—SAE 10W, SAE 20/20W, SAE 30—For each season.

Distributed by the JOHNSON OIL COMPANY OF GRAYLING
Patronize your friendly neighborhood Good GULF Dealer

because it's super-refined to burn clean

No gasoline, no matter how high the octane, can keep on giving you full power from your engine unless it burns clean.

That's why New Gulf NO-NOX is your best gasoline buy. In making new NO-NOX, Gulf refines out the "dirty-burning tail-end" of gasoline, the No. 1 troublemaker in today's high-compression engines.

As a result, you get a clean-burning gasoline that gives you:

- More complete engine protection than you get with so-called "miracle-additive" gasolines
- Extra gasoline mileage in the kind of short-trip, stop-and-go driving motorists do most
- Freedom from vapor lock, stalling and stumbling in hot-weather driving
- No knock, no surface pre-ignition—even in today's high-compression engines
